

ROSES

HYBRID TEA

Supplied in 4 litre rigid pots

Price each per 100 from £5.95

Roses should always be included into any architect's design, with their brilliant display of such varied colour from Spring to late Autumn. The H.T. (Hybrid Teas) have larger blooms of perfect conical form (than Floribundas) and many varieties produce a lovely fragrance. H.T.'s make a beautiful display, and are exceptional as cut flowers.
